PROFILE

Data Analytics Enthusiast looking for opportunity where I will get a chance to utilize my analytical & technical skills to solve real life problems related to analyzing a big volume of datasets to draw insights that can help with business decisions.

PROFESSIONAL EXPERIENCE

Internship - Full Stack Data Science Intern

iNeuron.ai , Bangalore Karnataka India

Nov 2021 - Present

- This is Certification Program from one year.
- Learning about Data Science

PROJECTS

Mushroom Classification Project

July 2022- Present

Aim : The aim is to develop a application by using machine learning algorithm that will determine if a certain mushroom is edible or poison by its specifications like cap shape, cap color, gill shape, gill size etc.

Tools : Python(numpy, pandas) , ML(sklearn , nltk) ,cloud service (Heroku).

Heart Disease Diagnostic Analysis.

June 2022- Present

Problem Statement : Health is real wealth in the pandemic time we all realized the brute effects of covid-19 on all irrespective of any status. You are required to analyse this health and medical data for better future preparation.

- Do Extract- Trasfer -Load some heart disease dataset and extract various information such as Heart disease rates,Heart disease by gender, by age.

Tools : Python(numpy, pandas, seaborn, matplotlib) ,Power BI ,Jupyter Notebook

SKILLS

- **Programming :** Python , SQL
- **Visualization:** Power Bi, Tableau, Excel, Jupyter Notebook
- **Database :** MySQL, MongoDB
- **Microsoft Office suites :** Excel, Word, PowerPoint

EDUCATION

MCA(Master of Computer Applications)

Gondwana University

2018-2021

Gadchiroli

B.Sc(Bachelor of Science)

Gondwana University

2022-2024

Gadchiroli

TRAINING

Symbiosis Skills & Professional University Pune

Data Associate Certification Training Program

Dec 2021 - March 2022

Learnt about SQL, Python fundamentals, data processing and EDA .

Tableau Power Bi - Business report , data visualization, business reporting , dashboard.
